

## Technical Workshop Safety – Quick guide

- Pupils should not enter a workshop without permission
- Bags and jackets should be stored in the cupboards under the benches
- Long hair should be tied back
- Jewellery, lanyards, scarves, etc should be removed
- Neck ties that are not inside a jumper etc should be removed
- Stools should not be used when using tools
- Aprons are provided to protect your clothing
- Safety glasses should be worn when using any machinery or power tools
- Let the teacher know about any accidents or breakages
- Work as directed by the teacher
- Do not use any equipment unless you have been shown how to use it safely
- The workshop environment carries inherent risk, sensible behaviour at all times is therefore a must.
